

Numo Yachts Group

NUMO 700

Numo 700 designed for daily sailing, inspired by motorboats often seen near beautiful Portofino. On board you'll find everything you need to enjoy wonderful day on the water. Perfectly planned interior function and ergonomics and top quality materials makes this unique relax climate on the sea. In bow part we will find kitchen, sink and refrigerator, and just behind it in central bow part is large, mobile and folding table. On stern side of the deck there is wheelhouse, appliances ergonomic layout , perfect vision makes steering a real pleasure. Around the sides are designed comfortable seats for eight passengers, moreover in bow part there is also possibility to unfold large sunbath platform. The boat is equipped with wc and shower on the stern.

Completion of style to the unit is classical bimini providing desired shade, especially during meals on water. Numo 700 perfectly meets all requirements of clients and charter companies who search safe, elegant and comfortable boat to a day trips on water.

In 700 series Studio Numo also prepared motorboat prototype, that is dedicated in particular to Italian market for charter companies. The boat meets all above mentioned functions, however the design is definitely more dynamic and allows fast sea sailing, in particular useful during water sports.

Technikal data: Total length : 7.00m

Hull length: 6.95m

Waterline line length; 6.20m

Total width: 2.52m

Waterline line width: 2.10m

Height : 1.20m

Free side: 0.70m

Depth: 0.70m

Designing category: C

Engine: 21KW

Displacement: 1200kg
